Professional Summary

Undergraduate B.Tech student in Computer Science and Engineering with strong programming knowledge in C, Java, and Python along with frontend technologies. Experienced in leading and developing team-based projects using machine learning and database technologies. Seeking an internship opportunity to apply technical and analytical skills in a dynamic organization.

Education

Bachelor of Technology in Computer Science and Engineering

Siddhartha Institute of Technology and Science

2023 – 2027

CGPA: 8.01

Intermediate

Sri Chaitanya Junior Kalasala

2021 – 2023

Percentage: 82.6%

SSC

Sri Sai High School

2021

CGPA: 10.0

Technical Skills

- Programming Languages: C, Python, HTML
- Database Technologies: MySQL
- Concepts: Object-Oriented Programming, Machine Learning Fundamentals
- Soft Skills: Problem Solving, Critical Thinking, Time Management, Team Coordination, Communication

Projects

SheRide – Women Safety Ride Booking Platform

2026

- Developed a women-focused ride booking web application using Flask, HTML, CSS, Bootstrap, JavaScript, and SQLite.
- Implemented user, driver, and admin modules with ride booking, driver verification, live tracking, and SOS emergency features.
- Integrated Leaflet.js and OpenStreetMap for real-time ride tracking and map visualization.

AI Resume Analyzer

2026

- Built an AI-based resume analysis web application using Flask, HTML, CSS, JavaScript, and NLP techniques.
- Implemented resume upload, ATS score generation, skill detection, and resume improvement suggestions.
- Designed a responsive user interface for analyzing resumes and enhancing job application readiness.

Financial Transaction Fraud Detection System

2025

Role: Main Developer and Team Lead

- Developed a machine learning-based financial fraud detection system using behavioral transaction analysis.
- Implemented Logistic Regression, Decision Tree, Random Forest, and KNN algorithms for fraud prediction, with Random Forest achieving highest accuracy.
- Built a Flask/Streamlit interface for real-time transaction fraud detection and monitoring.

Certifications

- RTRP Completion Certificate
- Microsoft Generative AI Certificate
- IBM SkillsBuild Completion Certificate
- SkillsBuild – Customer Engagement: Communication and Personality Dynamics
- SkillsBuild – Customer Engagement: Problem Solving and Process Control
- Artificial Intelligence Fundamentals
