

KUNCHALA RAJA SULOCHANA

Telangana | +91-8008375076 | rajasulochanakunchala21@gmail.com

ABOUT

Passionate Computer Science undergraduating with a strong interest in web development and software engineering. Skilled in JavaScript, React.js, HTML, CSS, and SQL, with experience building responsive and user-friendly applications through academic projects. Adept at problem-solving, eager to learn emerging technologies, and committed to developing efficient, scalable, and impactful software solutions.

EDUCATION QUALIFICATION

Program	Institution	CGPA /PERCENTAGE	Completion
B.Tech (Computer Science)	Siddhartha Institute Of Technology And Sciences	8.00	2023- present
Intermediate	Sri Chaitanya junior college	78%	2021-2023
SSC(10 th)	Ravindra Bharathi High school	10.00	2021

SKILLS

Languages: C, Python, JavaScript, Java(Core).

Frontend: HTML, CSS, React.js, Responsive Web design.

Tools & Platforms: Git, GitHub, VS Code, Streamlit, flask.

Database: MySQL

Machine Learning (Fundamentals)- Pandas, NumPy, Scikit-learn, Matplotlib.

Core Subjects: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks.

Soft Skills: Problem Solving, Communication, Leadership, Teamwork.

PROJECTS

- **BLOOD BRIDGE-Smart Blood Donor & Recipient Management System**

Developed a responsive blood donation management platform that connects donors, recipients, hospitals, and blood banks through a centralized interface. Implemented role-based dashboards, blood group and location-based donor search, emergency blood request management, appointment scheduling, donation history..

- **PORTFOLIO GENERATOR-Dynamic Portfolio Creation Platform**

Developed a web application that generates professional portfolios from user-provided information. Implemented dynamic content rendering, form validation, real-time preview, and responsive layouts to create customizable portfolio pages with an intuitive user experience.

- **SMART GRID ELECTRICITY THEFT DETECTION USING CONSUMER METERING ANOMOLIES**

Developed a machine learning-based web application to detect potential electricity theft using smart meter consumption data. Built an interactive Streamlit dashboard for data analysis, visualization, and prediction, enabling users to identify abnormal consumption patterns and support efficient smart grid monitoring.

ACHIVEMENTS

Generative AI Course – Microsoft

Web Development course certification from Coincent.

IBM SkillsBuild certifications-

- Problem Solving and Process Control
- Communication and Personality Dynamics
- Artificial Intelligence Fundamentals
